

ANANYA SHARMA

COMPUTER SCIENCE STUDENT | ML ENTHUSIAST | PROBLEM SOLVER

✉ ananya.sharma@email.com | ☎ +91 98765 43210 | 🔗 linkedin.com/in/ananya-sharma | 🐙 github.com/ananyasharma

SKILLS

- C, C++, DSA (with C), Python, Machine Learning (with Python), Java, SQL, OOPS, Generative AI, HTML, CSS, JavaScript, Data Structures, Algorithms

EXPERIENCE

- AI Intern | CodSoft** May 2024 – Jun 2024
Built mini AI applications using Python including a chatbot and image classifier.
Worked on data preprocessing and model evaluation.
- Web Development Intern | DevTown** Jan 2024 – Feb 2024
Developed responsive web pages using HTML, CSS, JavaScript and Bootstrap.
Collaborated in a team to build an interactive student portfolio website.
- Data Science Intern | Elevate Labs** Sep 2023 – Oct 2023
Analyzed datasets using Python, Pandas and NumPy to extract insights.
Created data visualizations using Matplotlib and Seaborn.
- Open Source Contributor | GirlScript Summer of Code** May 2023 – Aug 2023
Contributed to open source projects, fixed issues and improved documentation.
Collaborated with a global community of developers.

CERTIFICATIONS

- Python for Data Science | IBM**
Completed a comprehensive course on Python libraries, data analysis and visualization.
- Machine Learning A-Z™ | Udemy**
Learned machine learning algorithms, model building and evaluation techniques.
- SQL (Advanced) | HackerRank**
Solved advanced SQL queries and database problems.

EDUCATION

- Bachelor of Computer Applications** | Galgotias University, Greater Noida CGPA: 8.32 | (Aug '24 – Jun '27)
- XII (CBSE)** | The Doon Valley Public School, Deoband 72.4% | 2024

PROJECTS

- Smart Study Planner | Web Project**
Developed a study planner web application that helps students organize tasks, set goals and track progress.
- Weather Dashboard | API Project**
Built a real-time weather dashboard using OpenWeather API to display current weather information.
- News Aggregator | Web Scraping Project**
Created a news aggregator that fetches top headlines from multiple sources using Python and BeautifulSoup.
- Attendance Management System | Python Project**
Developed a desktop application to manage student attendance records with search and report generation.

ACHIEVEMENTS

- Solved 500+ problems on LeetCode and GeeksforGeeks.
- Participated in Codeforces contests and achieved 3★ rating.
